### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**DETAILED ACTION**

***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Sakurai (US 5210734).

In regard to claim 1, Sakurai teaches an information reproduction method for an information recording medium including a management information area (column 1 lines 66-68); and a data recording area including a plurality of sectors to which physical sector number are respectively assigned; wherein: the management information area includes an area for recording a physical sector number of a sector to which a logical sector number "0" is assigned (fig. 5B), among the plurality of sectors included in the data recording area, the information reproduction method comprising: reading the management information from the information recording medium; and obtaining the physical sector number of the sector to which a logical sector number "0" is assigned (see fig. 6 where Logical Sector Number 0 follows directly after the TOC).

In regard to claim 2, see claim 1 rejection above.

***Response to Arguments***

2. Applicant's arguments filed 1/30/06 have been fully considered but they are not persuasive.

Applicant argues on page 4, 3<sup>rd</sup> paragraph, lines 2 and 3 that "Sakauri does not teach or suggest recording in a management information area the physical sector number of the sector to which the logical sector number "0" is assigned". However, the examiner maintains the rejection because the TOC is a management area and in this area there is inherently physical address locations of all the logical sector numbers.

***Conclusion***

3. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
